

BRAVO

Progression valve

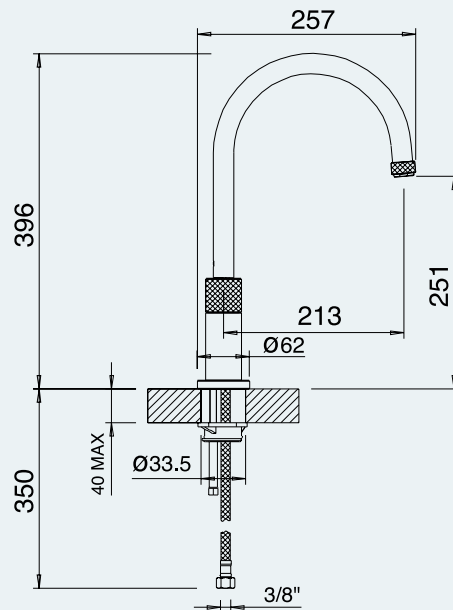

The Bravo progression valve tap is the height of simple minimalist design. Combining progression valve technology and stunning cylindrical styling, the Bravo is the perfect accompaniment to any contemporary kitchen setting.

It is available in a stunning chrome or brushed steel finish.

BRAVO

Progression valve

Minimum Recommended Pressure:

- Use with pressurised water system of 2 to 5 Bar

Features:

- Progression valve
- Single Flow
- Fast fit Flexi-Tails

Finishes available

Chrome TP0466
Brushed Steel TP0467

Progression valves are the latest advancement in tap technology. To operate, simply turn the control in the centre of the tap - there are no levers to twist or pull. The control at the end of the spout allows selection of the type of flow output. This style of operation creates simple, minimalist design.
